## Creating My Career

Two Creating My Career events have now been held in Burnie and Launceston, with a third one to be held in Hobart in August.

Over 1400 students have attended the Burnie & Launceston events where Colin and Sam from Arbre were all set up with the simulators promoting the forest industry.

For more information about these events go to [www.creatingmycareer.net](http://www.creatingmycareer.net)

## Arbre is Awesome!

Arbre has received positive feedback in the past month from 3 company's - thank you for taking the time to let us know what you think:

“Sam and Colin were awesome today, their presentation was pitched exactly where it needed to be with our kids and they really generated a heap of conversation” - Helen, Jordan River Learning Federation (Senior School).

“I just want to thank and congratulate you on the development of this pre-employment program.” - Anthony, Vmac Employment Solutions.

“Thank you for your contribution to 2018 Hutchins Careers Expo” - Linda, The Hutchins School.

## Member Profile

**Elphinstone Engineering** are proud to be involved with Arbre from its inception and worked with other industry members to get it up and running.

Elphinstone introduced on board weighing systems to the Australian logging industry in 1976 and then started designing and manufacturing log transport equipment. From that start to today Elphinstone have continually developed and manufactured many innovations to help keep our logging industry more competitive on the world market and had a strong emphasis on making our log transport safer and give a better public image of our industry. Log trucks & trailers are our industries front line image of our industry to the general public and we see improving this image very important.

I feel our industry needs to spend more time and energy in promoting the sustainable job and career opportunities that are available in our forest industry plus all the service industries that are required to support this ongoing renewable industry.

Elphinstone Triabunna & Melbourne operations employ apprentices and always on the lookout for people who have passion and want to succeed in life.

From our start working with the forest industry has lead us to supplying many other industries with innovative products. We are Proud to be an Australian Manufacturer.

Graeme Elphinstone.

## School Visits

During May and June Arbre did a lot of careers promoting and visited the following schools to attend their careers events and talk to the students:

Elizabeth College  
St Patricks College  
Jordan River Learning Federation Senior School  
Claremont College  
The Hutchins School  
Queechy High School  
Kingston High School
